

Administrative Office of the Courts

Operations Division

Amendment # 2

Request for Proposals

Turnkey Digital Court Recording System for the District Court of Maryland

PROJECT # K21-0049-40

The following changes/additions are listed below; new language has been underlined and language deleted has been marked with a ~~strikeout~~ (ex. ~~language deleted~~).

1. MODIFY -SECTION 2 – STATEMENT OF WORK/ PAGE 16 & PAGE 17

Page 16:

- **Record Playback**
 - ~~Capability to playback of up to 32 audio channels for clarity when transcribing. No video playback.~~
 - Capability to playback of up to 32 audio channels for clarity when transcribing. At present we do not use 32 channels but in the future it maybe a possibility.

Page 17:

- **Video Recording**
 - ~~The device must be capable of recording video for cases that involve a sign language interpreter to preserve a record of the interpretation. The system should allow for the court to be able to upgrade the system to capture a video record. Direct connection from existing video system into the recording system.~~
 - For the future the device should have the capability of recording video for cases that involve a sign language interpreter to preserve a record of the interpretation. The system

should allow for the court to be able to upgrade the system to capture a video record.
Direct connection from existing video system into the recording system

- **Additional Features**

- ~~Capability to provide video and incorporate remote Interpreter on Demand Services~~

- **For the future the capability to provide video and incorporate remote Interpreter on Demand Services**
