

Maryland Program for Mediator Excellence

A tree with many branches is the vibrant symbol for the Maryland Program for Mediator Excellence. The many branches provide members with stimulating choices to continue their learning, growth, and experiences as mediators. A sturdy trunk supports the cultivation of excellence for mediators coming from a variety of mediation approaches, practice contexts and levels of experience. The tree's roots represent the solid foundation needed for high quality mediation and while it is surely a solid and sturdy tree, it grows organically to meet the changing needs of Maryland's mediation users, mediators and the general public. The tree was planted by and for Maryland's dynamic mediation community.(2008)
