

**Circuit Court for Howard County
Position Announcement**

Job Title: Statistician/Researcher

Position Type: Regular F/T Grant Funded

Opening Date: 09/05/2022

Closing Date: Open until filled

Grade/Salary Range: I \$54,114 -59,269

Starting salary commensurate with education and experience.

The primary work of the Statistician/Court Researcher is to provide research and enhancement services to the Circuit Court. The Researcher performs professional level work by developing and analyzing data and reports that accurately measure the case data and Court's policies and programs.

Essential Functions:

- Work with judges, court managers and staff to compile data and produce reports that will accurately measure the court's policies and programs.
- Maintain overall records for Alternative Dispute Resolution (ADR) programs, including research to determine status of case, recommendations for referrals and statistics on all mediations, settlement conferences and other ADR services/programs.
- Manage the ADR practice roster.
- Work collaboratively with court administration and the judiciary to support and advance ADR programs.
- Assist in the completion of regular court reports, such as the Annual Caseflow Assessment, Family Services Report and Annual State of the Court Report.
- Assist with program evaluations and analyze workload demands.
- Implement CourTools analysis of the Court's caseload.
- Review and improve data reliability.
- Collaborate with the Judiciary's Court Operations Dept. in the collection and analysis of statewide data.
- Conduct research related to data collection and reporting in the court case management systems.
- Gather statistics and provide explanations on court programs for judges, court staff, other court and government officials, as well as the media and general public.
- Work independently and as part of a team on specialized projects.
- Work as a liaison to the Administrative Office of the Courts on court performance measures.
- Attend meetings and work offsite in support of Judiciary-wide initiatives.

Knowledge, Skills and Abilities:

- Ability to conduct statistical analysis of data; analytical skills.
- Ability to perform statistical analyses using software packages.
- Knowledge of court processes, procedures and practices.
- Ability to convey complex data arrangements in a straight-forward and meaningful way using charts, graphs, and narrative explanations.
- Writing skills which include drafting, editing and formatting of reports; technical writing ability, and ability to translate and articulate policy and procedures.
- Ability to work on several projects simultaneously.
- Knowledge of database development, online survey software, Windows operating systems and Microsoft applications.
- Ability to ensure the accuracy, validity, and reliability of data from source systems to the point of reporting.
- Ability to effectively collaborate and communicate with a wide variety of people

Experience: Bachelors' degree required. Minimum three (3) years of related work experience which includes statistical research and methodology. Master's degree in social science research, public policy, judicial administration or related field may substitute for one year or work experience.

Please submit a resume, salary history and references stating the position title by 11:59 pm of the closing date to:
