Executive Summary

The current report describes the results of the caseflow analysis for Fiscal Year 2016 (July 1, 2015 to June 30, 2016). Samples of up to 501 original cases terminated in Fiscal Year 2016 were examined for the following case types: Criminal, Traffic 21-902, Traffic Must Appear, Traffic Payable, Civil Large, and Civil Small. Cases were extracted from the Judicial Information Systems (JIS) database for each of the 23 counties and Baltimore City within Maryland's District Court, totaling 60,327 valid case terminations used for the present analysis. Cases without case start dates and those with negative case processing times (i.e., case stop dates that occur before start dates) were excluded from the current analysis as they are in the *Maryland Judiciary Assessment Application*.

The Fiscal Year 2016 District Court statewide analysis yielded the following principal case processing performance results:

Percentage of Cases Closed Within-Standard Time (%WST)

- Table 1 of the report presents the percentage of cases closed within standard. Table 2 of the report presents the percentage of cases closed within standard as a function of jurisdiction size.
- Statewide, no case type met the goal of 98% of cases completed within standard, although some jurisdictions did meet or exceed this standard in some case types.
- The highest percent of cases closed within standard was 96% for Civil Large cases, followed by 95% for Civil Small cases, and 90% for Criminal. The lowest within-standard termination rate was 76% for Traffic Must Appear.
- The percent of cases closed within-standard for Fiscal Year 2016 improved or remained consistent from Fiscal Year 2015 for Traffic 21-902, Traffic Must Appear, Civil Large, and Civil Small cases.
- Performance among small jurisdictions was above the statewide percentage within standard for all case types. Among medium-sized jurisdictions, performance was above the statewide percentage within standard for all case types. Among large jurisdictions, performance was below the statewide percentage for all case types, except Civil Large, which was equivalent to the statewide percentage.

Average Case Time

- Table 3 of the report presents the average case processing times, and Table 4 of the report presents the median case processing times.
- Statewide average and median case processing times were within standard for each case type in Fiscal Year 2016.
- Statewide, the average case processing time decreased in Fiscal Year 2016 for Traffic 21-902, Traffic Must Appear, and Civil Large cases; Civil Small remained equivalent. The within-standard case processing times increased slightly for Traffic Payable cases. Similar to the average case processing times, there was an increase in over-standard case processing times for all case types.
- The statewide median case processing time decreased for Traffic 21-902, Traffic Must Appear, and Civil Large during Fiscal Year 2016. The median within-standard case

processing times decreased for all case types except Traffic Payable and Civil Small cases. The median over-standard case processing times increased for all case types.

- Civil Large cases took the longest amount of time to close over-standard cases, at approximately 3 months to close half of the over-standard cases of this type in Fiscal Year 2016.

Postponements and Suspensions

- Table 6 of the report presents the number and percent of postponements by case type. Tables 7 – 16 of the report present the number of suspensions by suspension event and by case type.
- As in recent years, postponements were much more likely among Criminal (53%), Traffic 21-902 (51%), and Civil Large cases (35%), with the fewest postponements reported among Traffic Payable cases (12%).
- Of the cases in the sample that recorded one or more postponements, 99% or more contained a matching number of postponements and postponement reasons.
- There were 108 cases in Fiscal Year 2016 with mismatched postponement information (in which the number of postponement reasons provided does not match the postponement count). This occurred most frequently in Criminal cases (57 cases), followed by Civil Large cases (33).
- In Fiscal Year 2016, 13% of cases had one or more suspensions, comparable with Fiscal Year 2015's 13%. The number of cases with one or more suspensions was highest among Traffic Must Appear cases (23%) and Criminal (14%) and lowest in Civil Small (2%). Across all case types, there were 7,637 suspensions.
- A total of 90% (6,837 suspensions of the 7,637) had valid data (i.e., no missing start or stop dates, and the time from suspension start to suspension stop was a positive number), whereas 10% were without valid data (i.e., missing either a suspension start or stop date, or the time from suspension start to suspension stop was a negative number).

Main Analysis

The Maryland Judiciary has examined the case processing times of a sample of cases in the District Court each fiscal year since 2002. The current report describes the results of the caseflow analysis for Fiscal Year 2016 (July 1, 2015 to June 30, 2016). Samples of up to 501 original cases terminated in Fiscal Year 2016 were examined for the following case types: Criminal, Traffic 21-902, Traffic Must Appear, Traffic Payable, Civil Large, and Civil Small. Cases were extracted from the Judicial Information Systems (JIS) database for each of the 23 counties and Baltimore City within Maryland's District Court, totaling 60,327 valid case terminations used for the present analysis.¹ This is 2,778 cases less than the number reported for Fiscal Year 2015

¹ Cases without case start dates and those with negative case processing times (i.e., case stop dates occur before start dates) were excluded from the current analysis (they are also excluded in the *Maryland Judiciary Assessment Application*). In certain circumstances, a valid case may have a missing start date because the case start date in the Assessment does not necessarily correspond to the case filing date, and a case may close prior to that start date (for example, a confessed judgment case in civil cases). Since there is no easy way to verify the information of these cases, all cases with missing case start dates as well as those with missing processing times were removed. An analysis of these invalid cases is included in a supplemental statewide Methodology/Data Issues report.

(57,549). Due to the transition to a new case management system, the District Court locations on the upper and lower eastern shore were excused from conducting a data quality review for the Fiscal Year 2016 analysis of case processing performance.

Within-standard Percentages

Statewide, no case type met the Judiciary goal of 98% of cases completed within-standard, although some jurisdictions did meet or exceed this standard in some case types. The percent of cases closed within-standard for Fiscal Year 2016 improved or remained consistent from Fiscal Year 2015 for Traffic 21-902, Traffic Must Appear, Civil Large and Civil Small case types. The highest percent of cases closed within-standard was 96% for Civil Large, followed by 95% for Civil Small cases, and 90% for Criminal, and the lowest within-standard termination rate was 76% for Traffic Must Appear.² Criminal and Traffic Payable cases saw declines from Fiscal Year 2015. There was no change in the within-standard percentage for Civil Large and Civil Small cases in Fiscal Year 2016. Statewide weighted percentages of cases terminated within-standard by case type for Fiscal Year 2016 are shown in Table 1 below.

Table 1. Overall Terminations and Percent of Cases Terminated Within Standard (Weighted) by Case Type, District Court, FY 2015 and FY 2016

| Case Type | Judiciary Goals | | FY 2016 Original Terminations | Within-Standard Terminations | | | FY 2015-16 Change |
|----------------------------|-----------------|-------------------------|-------------------------------|------------------------------|-----|------------|-------------------|
| | Time Standard | Percent Within-Standard | | FY 2016 | | FY 2015 %* | |
| | | | | N | %* | | |
| Criminal | 180 days | 98% | 11,312 | 10,445 | 90% | 92% | -2% |
| Traffic 21-902 | 180 days | 98% | 8,989 | 7,635 | 79% | 76% | 3% |
| Traffic Must Appear | 180 days | 98% | 11,756 | 9,994 | 76% | 74% | 2% |
| Traffic Payable | 120 days | 98% | 11,966 | 11,365 | 93% | 96% | -3% |
| Civil Large | 250 days | 98% | 5,659 | 5,493 | 96% | 96% | 0% |
| Civil Small | 120 days | 98% | 10,645 | 10,265 | 95% | 95% | 0% |
| Total | | | 60,327 | | | | |

**Percentages of cases closed within the Time Standards are weighted averages of the jurisdiction-specific statistics. To see unweighted percentages, please see Appendix C.*

Case processing performance by jurisdiction size is provided in Table 2 below. There were three instances among all jurisdiction sizes that met the Judiciary Goal, two instances among small jurisdictions, and one among medium jurisdictions. Performance among small jurisdictions was above the statewide percentage within-standard for all case types. Among medium-sized jurisdictions, performance was above the statewide percentage within-standard for all case types. Among large jurisdictions, performance was below the statewide percentage for all case types, except for Civil Large which was equivalent to the statewide percentage. The lower performance of the large jurisdictions shows the major impact these courts have on the statewide within-

² These statewide percentages are the weighted averages of the jurisdiction-specific statistics so that each jurisdiction's overall terminations are reflected in the calculation of the statewide average.

standard percentages. These jurisdictions have a higher amount of cases being terminated, therefore they have a larger weight.

Table 2. Percent of Cases Closed Within Time Standard (Weighted) as a Function of Jurisdiction Size and Case Type for District Court, FY 2016*

| Case type | Time standard | Judiciary Goals | Statewide | Jurisdiction size | | |
|----------------------------|---------------|-----------------|-----------|-------------------|--------|-------|
| | | | | Small | Medium | Large |
| Criminal | 180 days | 98% | 90% | 93% | 93% | 89% |
| Traffic 21-902 | 180 days | 98% | 79% | 87% | 91% | 72% |
| Traffic Must Appear | 180 days | 98% | 76% | 88% | 92% | 70% |
| Traffic Payable | 120 days | 98% | 93% | 98% | 96% | 90% |
| Civil Large | 250 days | 98% | 96% | 98% | 98% | 96% |
| Civil Small | 120 days | 98% | 95% | 97% | 97% | 94% |

** Percentages of cases closed within the Time Standards are weighted averages of the jurisdiction-specific statistics. To see unweighted percentages, please see Appendix C.*

Average and Median Case Processing Time

Overall average case processing times were within standard for each case type (see Table 3). The overall average case processing time decreased or remained consistent for all case types, except Criminal and Traffic Payable, in Fiscal Year 2016. The greatest increase was seen in Traffic Payable cases (13%). In Fiscal Year 2016 the within-standard case processing time increased slightly for Traffic Payable cases (4%). There was a decrease in within-standard processing time for Criminal, Traffic 21-902, Traffic Must Appear, and Civil Large cases. The Civil Small within-standard case processing time remained the same from Fiscal Year 2015. The average processing time of over-standard cases in Fiscal Year 2016 increased from Fiscal Year 2015 averages for all case types. The greatest increase was seen in Civil Small cases (14%).

Table 3. Average Overall, Within- and Over-Standard Case Processing Time (Weighted) by Case Type, District Court, FY 2016*

| Case Type | Time Standard | FY 2016 Average Case Time (in days) | | | FY 2015 Overall Average Case Time |
|----------------------------|---------------|-------------------------------------|-----------------|---------------|-----------------------------------|
| | | Overall | Within-standard | Over Standard | |
| Criminal | 180 days | 94 | 73 | 266 | 90 |
| Traffic 21-902 | 180 days | 137 | 105 | 251 | 144 |
| Traffic Must Appear | 180 days | 146 | 104 | 266 | 148 |
| Traffic Payable | 120 days | 68 | 57 | 175 | 60 |
| Civil Large | 250 days | 94 | 83 | 367 | 97 |
| Civil Small | 120 days | 63 | 57 | 199 | 63 |

** Percentages of cases closed within the Time Standards are weighted averages of the jurisdiction-specific statistics.*

Similar to overall average case processing times, overall median case processing times were within-standard (see Table 4). The overall median case processing time decreased for Traffic 21-902, Traffic Must Appear, and Civil Large cases; it was equivalent to Fiscal Year 2015 in Criminal and Civil Small cases. For Fiscal Year 2016 the within-standard median case processing times decreased for Criminal, Traffic 21-902, Traffic Must Appear, and Civil Large cases. There was a slight increase in within-standard median case processing time for Traffic Payable and remained consistent for Civil Small cases. The median processing times of over-standard cases increased for all case types.

Table 4. Overall, Within- and Over-Standard Median Case Processing Time (Weighted) by Case Type, District Court, FY 2016*

| Case Type | Time Standard | FY 2016 Median Case Time (in days) | | | FY 2015 Overall Median Case Time |
|----------------------------|---------------|------------------------------------|-----------------|---------------|----------------------------------|
| | | Overall | Within-standard | Over Standard | |
| Criminal | 180 days | 75 | 67 | 224 | 75 |
| Traffic 21-902 | 180 days | 117 | 102 | 229 | 126 |
| Traffic Must Appear | 180 days | 123 | 100 | 238 | 130 |
| Traffic Payable | 120 days | 56 | 55 | 161 | 52 |
| Civil Large | 250 days | 71 | 69 | 323 | 75 |
| Civil Small | 120 days | 56 | 55 | 161 | 56 |

** Percentages of cases closed within the Time Standards are weighted averages of the jurisdiction-specific statistics.*

Distribution of Over-Standard Cases

As shown in Table 5 below, over-standard cases terminated within a week beyond the time standard ranged from 8% for Traffic Must Appear cases to 16% for Civil Small cases, whereas 28% to 48% of them closed within one month beyond the time standard. As was found in Fiscal Year 2015, it took the longest amount of time to close over-standard Civil Large cases among all case types. In Fiscal Year 2016, Traffic 21-902, Civil Large, and Civil Small cases saw an increase or remained consistent in the percentage of cases closed within one week beyond the time standard. There were decreases in all case types in the percentage of cases closed within one month beyond the time standard. Lastly, the time to close 50% of over-standard cases increased for Criminal, Traffic Must Appear, Civil Large, and Civil Small cases in Fiscal Year 2016. Traffic 21-902 and Traffic Payable remained equivalent.

Table 5. Percent of Over-Standard Cases Closed within 1 Week and 1 Month Beyond Time Standard and Time Required to Close 50% of Over-Standard Cases by Case Type, District Court, FY 2016

| Case Type | Time Standard | Number of Over-Standard Cases | % of Over-Standard Cases Closing Over Standard | | | | Time to Close 50% of Over-Standard Cases |
|----------------------------|---------------|-------------------------------|--|-----------|----------------|-----------|--|
| | | | Within 1 week | | Within 1 month | | |
| Criminal | 180 days | 867 | 11% | 96 cases | 36% | 315 cases | 1.6 months |
| Traffic 21-902 | 180 days | 1,354 | 12% | 157 cases | 38% | 520 cases | 1.5 months |
| Traffic Must Appear | 180 days | 1,761 | 8% | 144 cases | 33% | 588 cases | 1.6 months |
| Traffic Payable | 120 days | 600 | 14% | 85 cases | 48% | 293 cases | 1 month |
| Civil Large | 250 days | 166 | 9% | 15 cases | 28% | 46 cases | 2.6 months |
| Civil Small | 120 days | 380 | 16% | 59 cases | 44% | 166 cases | 1.3 months |

Postponements

Both pre-trial and trial postponements are reported to the Statewide Caseflow Assessment. The completeness and accuracy of this information, however, remains uncertain principally because reporting postponement information is still optional. Although jurisdictions had opportunities to review and complete the information during the assessment data quality review period, the extent to which postponement data was reviewed and corrected was not tracked. Accordingly, the statewide-level results regarding postponements in relation to the termination status (within-standard termination vs. over-standard termination) were not reported.

Table 6 below presents the number and percentage of cases with postponement information. For the purpose of this analysis, a “case with postponement information” is defined as a case with either valid information in the ‘number of postponements’ data field or postponement reasons provided, except for where both the number and reason fields indicated no postponement.

Postponements were much more likely among Criminal (53%), Traffic 21-902 (51%), and Traffic Must Appear (36%), with the fewest valid postponements reported among Traffic Payable cases (12%). Of the cases in the samples that recorded one or more postponements, 99% contained a matching number of postponements and postponement reasons.

There were 108 cases in Fiscal Year 2016 with mismatched postponement information (in which the number of postponement reasons provided did not match the postponement count). This is an increase of 5% from the 103 reported in Fiscal Year 2015. This occurred most frequently in Criminal cases (57 cases), followed by Civil Large cases (33 cases).

Table 6. Number and Percent of Cases with Postponement Information by the Match Between the Numbers of Postponements and Postponement Reasons by Case Type, District Court, FY 2016

| | FY 2016 Valid Terminations | Cases with valid postponement information * | | | Matching postponement information ** | | Mismatched postponement information *** |
|----------------------------|----------------------------|---|-----|-----------|--------------------------------------|------|---|
| | | N | % | FY 2015 % | N | % | N |
| Criminal | 11,312 | 6,030 | 53% | 54% | 5,973 | 99% | 57 |
| Traffic 21-902 | 8,989 | 4,568 | 51% | 50% | 4,568 | 100% | 0 |
| Traffic Must Appear | 11,756 | 4,248 | 36% | 36% | 4,246 | >99% | 2 |
| Traffic Payable | 11,966 | 1,486 | 12% | 13% | 1,485 | >99% | 1 |
| Civil Large | 5,659 | 1,987 | 35% | 39% | 1,954 | 98% | 33 |
| Civil Small | 10,645 | 2,097 | 20% | 21% | 2,082 | 99% | 15 |
| Total | 60,327 | 20,416 | 34% | 35% | 20,308 | 99% | 108 |

* Excludes cases with no postponements and no postponement reasons listed.

** Total number of cases in which the number of postponement reasons provided matches the postponement count.

*** Total number of cases in which the number of postponement reasons provided does not match the postponement count.

Suspensions

District Court case processing time is suspended for a variety of case-specific reasons. It is not mandatory for clerks to enter or verify these suspension reasons in the Assessment Application, however it was requested. Therefore, variation in reporting across jurisdictions is likely. As such, suspension data should be interpreted with caution.

In Fiscal Year 2016, 10% of cases were reported to have one or more suspensions, which is consistent with the analysis conducted for Fiscal Year 2015. The number of cases with one or more suspensions was highest among Traffic Must Appear cases (23%) and lowest in Civil Small cases (2%). Across all case types, there were a total of 7,637 suspensions.

Further analysis of case suspensions revealed that 90% (6,837 suspensions of the 7,637) had valid data (i.e., no missing start or stop dates, and the time from suspension start to suspension stop was a positive number). Whereas, 10% were without valid data (i.e., missing either a suspension start or stop date, or the time from suspension start to suspension stop was a negative number). See Table 7.

Table 7. Suspensions with Valid and Invalid Data as a Function of Case Type

| Case Type | Valid Terminations | Cases with One or More Suspensions (N, %)* | Overall Suspensions | | |
|----------------------------|--------------------|--|---------------------|--------------------------|------------------------------|
| | | | Total Suspensions | With Valid Data (N, %)** | Without Valid Data (N, %)*** |
| Criminal | 11,312 | 1,543 (14%) | 1,880 | 1,822 (97%) | 58 (3%) |
| Traffic 21-902 | 8,989 | 845 (9%) | 967 | 915 (95%) | 52 (5%) |
| Traffic Must Appear | 11,756 | 2,671 (23%) | 3,170 | 3,094 (98%) | 76 (2%) |
| Traffic Payable | 11,966 | 525 (4%) | 553 | 552 (>99%) | 1 (<1%) |
| Civil Large | 5,659 | 466 (8%) | 735 | 256 (35%) | 479 (65%) |
| Civil Small | 10,645 | 217 (2%) | 332 | 198 (60%) | 134 (40%) |
| Total | 60,327 | 6,267 (10%) | 7,637 | 6,837 (90%) | 800 (10%) |

* Percent of valid terminations.

** Suspensions with no missing start or stop dates and with a positive number for the time from suspension start to suspension stop. Percent of total suspensions.

*** Suspensions missing either a suspension start or stop date, or the time from suspension start to suspension stop was a negative number. Percent of total suspensions.

Invalid suspensions occurred for a variety of reasons. As shown in Table 8, among invalid suspensions, Civil Large cases had the highest frequency of missing stop dates and negative suspension times. Traffic Must Appear cases had the greatest frequency of missing start dates.

Comparable with prior years, 95% of reported suspensions in Criminal and Traffic cases are due to defendants having failed to appear (FTA) in court (see Table 9). Most of these were first-time FTAs. Most of the remaining suspensions in Criminal and Traffic cases are PSI-related.

Again in Fiscal Year 2016, more of the suspensions in civil cases were classified as invalid. This lower number of valid suspensions is likely due to the inclusion of the multiple defendant suspension to the assessment application. Suspensions due to multiple defendants accounted for approximately 90% of total suspensions among civil cases in Fiscal Year 2016.

Table 8: Invalid Suspension Data by Error Type as a Function of Case Type

| Case Type | Without Valid Data (N, %)* | Suspensions with Invalid Data by Error Type | | |
|----------------------------|----------------------------|---|-----------------------------|-----------------------------------|
| | | Missing Stop Date (N, %)** | Missing Start Date (N, %)** | Negative Suspension Time (N, %)** |
| Criminal | 58 (3%) | 57 (98%) | 1 (2%) | 0 (0%) |
| Traffic 21-902 | 52 (5%) | 36 (69%) | 15 (29%) | 1 (2%) |
| Traffic Must Appear | 76 (2%) | 23 (30%) | 50 (66%) | 3 (4%) |

*Jurisdiction-size specific averages are weighted based on the number of terminations reported to the State for each jurisdiction.

‡The District Court locations in the upper and lower eastern shore were excused from conducting a data quality review for the Fiscal Year 2016 analysis of case processing performance.

Therefore, their individual results are not presented.

Appendix B: Statewide Distribution of Over-Standard Cases

Figure 1: Distribution of Over-Standard Cases by the Time Beyond the Time Standard, Criminal Cases (N=867), FY 2016

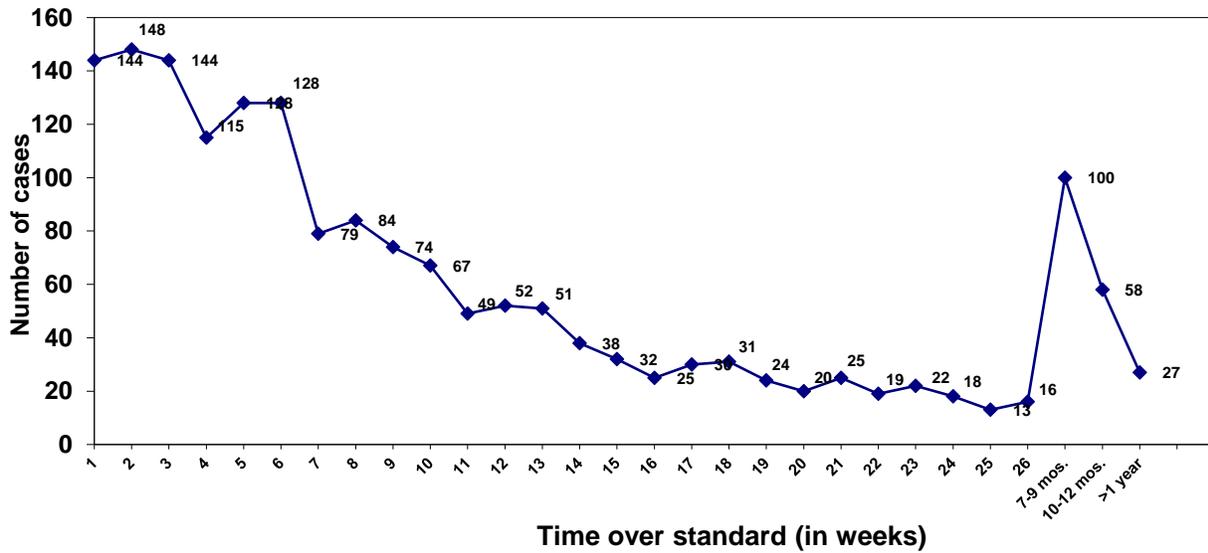

- The average case processing time (weighted)
 Overall: 94 days (FY 15: 90 days)
 Within-standard cases: 73 days (FY 15: 75 days)
 Over-standard cases: 266 days (FY 15: 243 days)
- 11% of the over-standard cases closed within 1 week over standard.
- 36% of the over-standard cases closed within 1 month over standard.
- 50% of the over-standard cases closed within approximately 1.6 months over standard.

Figure 2: Distribution of Over-Standard Cases by the Time Beyond the Time Standard, Traffic 21-902 Cases (N=1,354), FY 2016

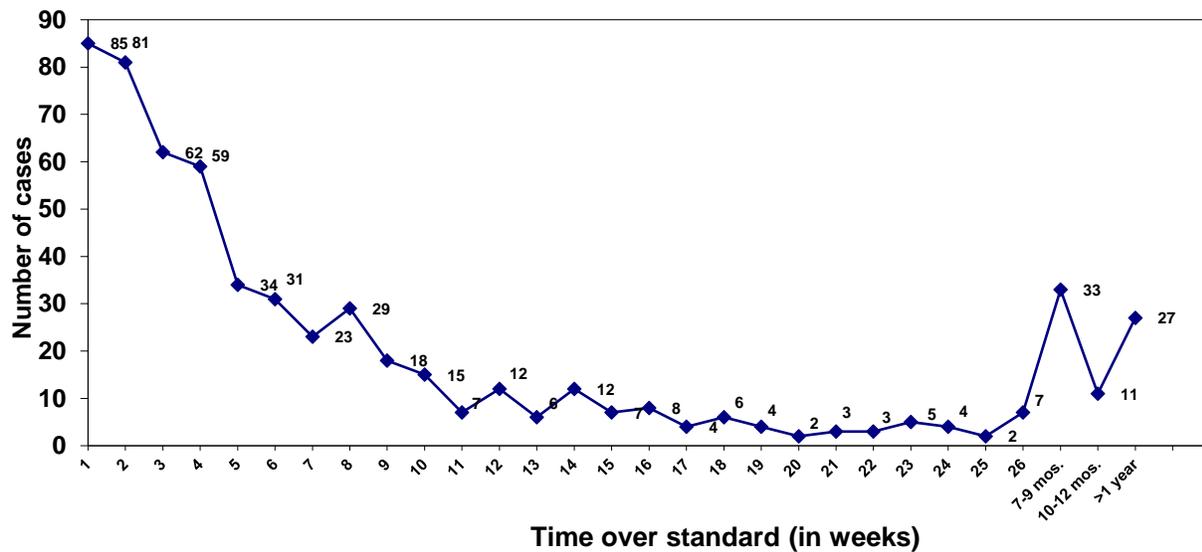

- The average case processing time (weighted)
 - Overall: 137 days (FY 15: 144 days)
 - Within-standard cases: 105 days (FY 15: 110 days)
 - Over-standard cases: 251 days (FY 15: 246 days)
- 12% of the over-standard cases closed within 1 week over standard.
- 38% of the over-standard cases closed within 1 month over standard.
- 50% of the over-standard cases closed within approximately 1.5 months over standard.

Figure 3: Distribution of Over-Standard Cases by the Time Beyond the Time Standard, Traffic Must Appear Cases (N=1,761), FY 2016

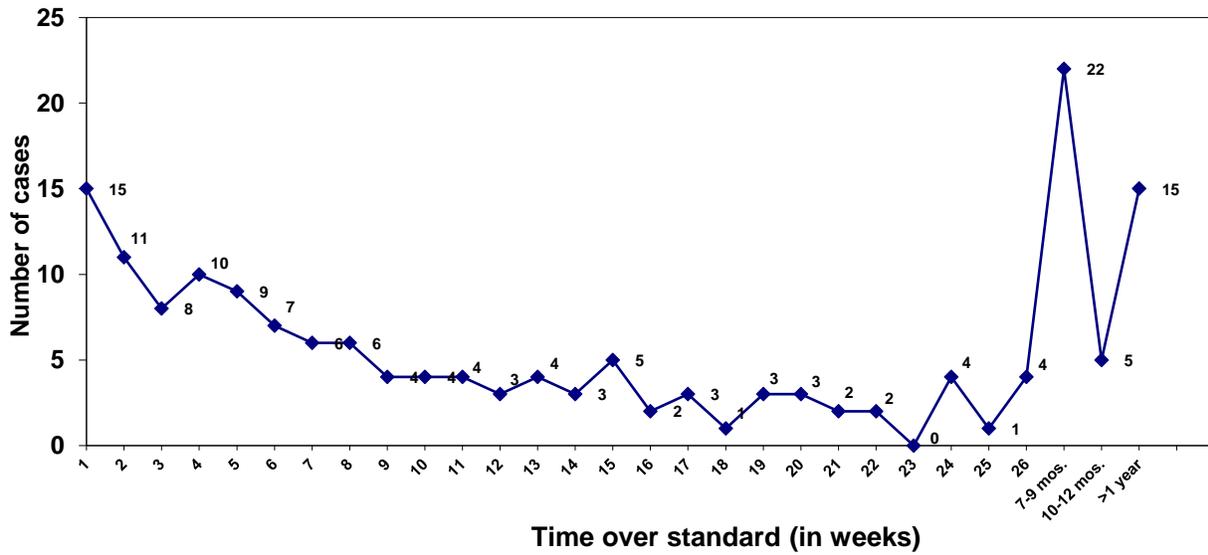

- The average case processing time (weighted):
 - Overall: 146 days (FY 15: 148 days)
 - Within-standard cases: 104 days (FY 15: 108 days)
 - Over-standard cases: 266 days (FY 15: 249 days)
- 8% of the over-standard cases closed within 1 week over standard.
- 33% of the over-standard cases closed within 1 month over standard.
- 50% of the over-standard cases closed within approximately 1.6 months over standard.

Figure 4: Distribution of Over-Standard Cases by the Time Beyond the Time Standard, Traffic Payable Cases (N=600), FY 2016

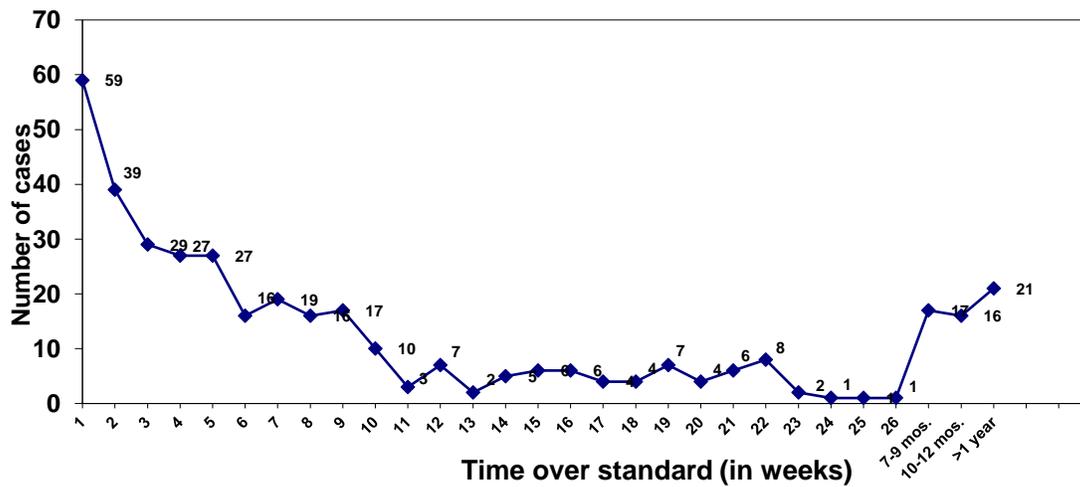

- The average case processing time (weighted):
 - Overall: 68 days (Fiscal Year 15: 60 days)
 - Within-standard cases: 57 days (Fiscal Year 15: 55 days)
 - Over-standard cases: 175 days (Fiscal Year 15: 162 days)
- 14% of the over-standard cases closed within 1 week over standard.
- 48% of the over-standard cases closed within 1 month over standard.
- 50% of the over-standard cases closed within approximately 1 months over standard.

Figure 5: Distribution of Over-Standard Cases by the Time Beyond the Time Standard, Civil Large Cases (N=166), FY 2016

- The average case processing time (weighted):
 - Overall: 94 days (FY 15: 97 days)
 - Within-standard cases: 83 days (FY 15: 86 days)
 - Over-standard cases: 367 days (FY 15: 339 days)
- 9% of the over-standard cases closed within 1 week over standard.
- 28% of the over-standard cases closed within 1 month over standard.
- 50% of the over-standard cases closed within 2.6 months over standard.

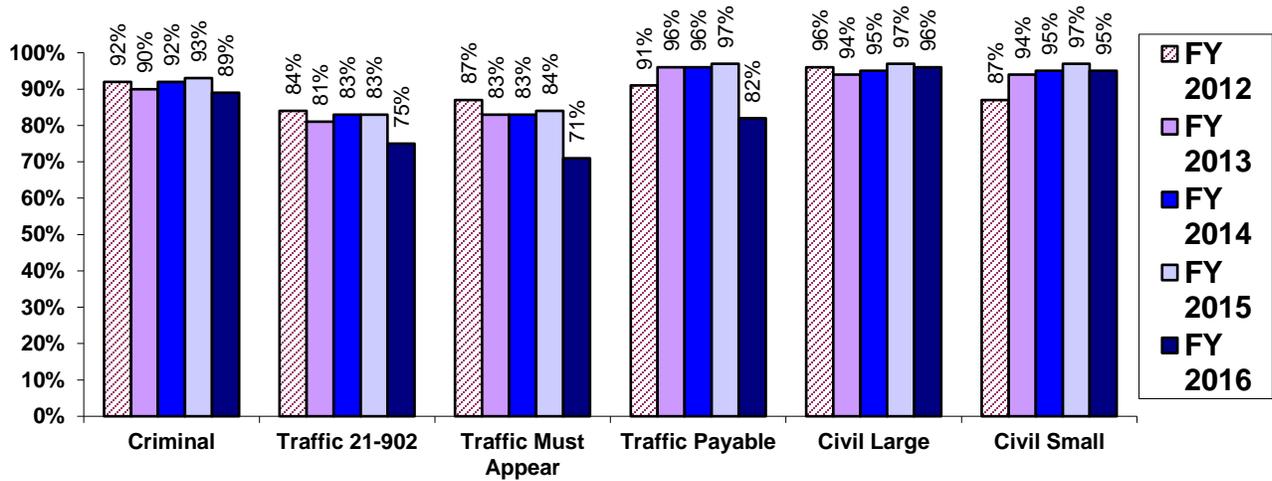

Figure 6: Distribution of Over-Standard Cases by the Time Beyond the Time Standard, Civil Small Cases (N=380), FY 2016

- The average case processing time (weighted):
 - Overall: 63 days (FY 15: 63 days)
 - Within-standard cases: 57 days (FY 15: 58 days)
 - Over-standard cases: 199 days (FY 15: 174 days)
- 16% of the over-standard cases closed within 1 week over standard.
- 44% of the over-standard cases closed within 1 month over standard.
- 50% of the over-standard cases closed within approximately 1.3 months over standard.
