

### **Caroline County**

For Phase II, all staff will be reporting on Monday and working from the office.

As far as dockets, Judge Everngam will mainly be addressing backlogged DV/PO temporary and final hearings in hourly increments, with no more than two parties appearing at a time. Bail reviews will still be conducted through video/phone conferencing and any plea agreements in criminal/traffic matters will be held remotely, using telephone conferencing, as well as preliminary hearings, with no testimony, only proposed resolutions.

There is a traffic trial set for June 12<sup>th</sup> due to time constraints re: an interstate detainer agreement with Delaware. If that matter proceeds to trial, parties will be required to physically appear, and we will use the video conferencing equipment with the jail when possible.
